A. Qualification

➤ Status Eligibility

Applicants shall meet the following requirements, cited from the latest [*Regulations Regarding International Students Undertaking Studies in Taiwan*](#):

Article 2

A person of foreign nationality who has never held Republic of China (“R.O.C.”) nationality and who meets the following requirements is permitted to apply for admission to an educational institution, in accordance with the provisions of these Regulations:

1. The person has never undertaken studies in Taiwan as an overseas Chinese student.
2. The person has not been given a placement in the current academic year by the University Entrance Committee for Overseas Chinese Students in accordance with the Regulations Regarding Study and Counseling Assistance for Overseas Chinese Students in Taiwan.

A person of foreign nationality who meets the following requirements and who in the immediate past has resided overseas continuously for at least six years is also permitted to apply for admission to an educational institution, in accordance with these Regulations. However, a person who plans to apply to study in a university department of medicine, dentistry, or Chinese medicine must have resided overseas continuously for at least eight years.

1. A person who at the time of their application also holds dual R.O.C. nationality shall have never had household registration in Taiwan.
2. A person who before the time of their application also held dual R.O.C. nationality but no longer does at the time of their application shall have renounced their R.O.C. nationality with the approval of the Ministry of the Interior on a date at least eight full years before making their application.
3. A person referred to in either of the preceding two subparagraphs shall meet the requirements stipulated in Subparagraph 1 and Subparagraph 2 of the previous paragraph.

A foreign national who was selected by a foreign government, organization, or school to study in Taiwan in accordance with the Education Cooperation Framework Agreement, and who has never had household registration in Taiwan may be given exemption from the restrictions set out in the preceding two paragraphs if the competent authority gives approval.

The periods of six years and eight years stipulated in Paragraph 2 shall be calculated using the starting date of the semester (February 1, or August 1) as the end date of the period.

The term “overseas” used in Paragraph 2 refers to countries or regions other than the Mainland Area, Hong Kong, and Macau; the term “reside overseas continuously” means that an international student has stayed in Taiwan for no more than a total of 120 days in each calendar year. When calculating the number of consecutive years spent overseas, if the initial or final year of the period is not a complete calendar year, any time spent in Taiwan in the initial or final year must not exceed 120 days. However, time that a person has spent in Taiwan is not subject to this restriction and it is not counted when

calculating how long they were in Taiwan in a particular year if the person has documentary proof that they:

1. attended an overseas youth training course organized by the Overseas Compatriot Affairs Council or a technical professional training program accredited by the Ministry of Education;
2. spent a total period of less than two years undertaking Chinese language classes at a Chinese language center at a university or tertiary college which has Ministry of Education approval to recruit students overseas;
3. spent a total period of less than two years in Taiwan as an exchange student; or
4. spent a total period of less than two years undertaking an internship that they came to Taiwan to undertake with the approval of the designated central competent authority.

A person who held both foreign and R.O.C. nationalities and applied for annulment of their R.O.C. nationality before the date of effect of the February 1, 2011 amendment to these Regulations may apply for admission as an international student in accordance with the provisions in place before the amendment and is not subject to the restrictions set out in Paragraph 2.

A person who meet the circumstances prescribed in Article 2 of the Nationality Act shall be deemed to have the nationality of the R.O.C. under these Regulations.

Article 3

An applicant of foreign nationality, who is eligible for permanent residence in Hong Kong or Macao, who has never had household registration in Taiwan, and who at the time of their application has resided in Hong Kong, Macao, or elsewhere overseas continuously for at least six years may apply for admission in accordance with the provisions of these Regulations. However, a person who plans to apply to study in a university department of medicine, dentistry, or Chinese medicine must have resided overseas continuously for at least eight years.

The term “resided [...] continuously” in the preceding paragraph means that a person did not spend more than a total of 120 days in Taiwan in each calendar year. However, this restriction does not apply if a person can present documentary proof that any of the circumstances listed in Paragraph 5, Subparagraphs 1 to 4 of the previous article apply. The time that they spent in Taiwan in the ways listed is not counted when calculating the period of continuous residence referred to in the previous paragraph.

A person who was formerly from the Mainland Area and who has foreign nationality and has have never had household registration in Taiwan, and who at the time of their application has resided overseas continuously for at least six years may apply for admission to an educational institution, in accordance with the provisions of these Regulations. However, a person who plans to apply to study in a university department of medicine, dentistry, or Chinese medicine must have resided overseas continuously for at least eight years.

The term “resided [...] continuously” in the preceding paragraph means that a person did not spend more than a total of 120 days in Taiwan in each calendar year. However, this restriction does not apply if a person can present documentary proof that any of the circumstances listed in Paragraph 5, Subparagraphs 1 to 4 of the previous article apply. The time that they spent in Taiwan in the ways listed is not counted when calculating the period that they resided continuously overseas referred to in the previous paragraph.

The periods of six years and eight years stipulated in Paragraph 1 and in Paragraph 3 shall be calculated using the starting date of the semester (February 1, or August 1) as the end date of the period.

The definition of “overseas” given in Paragraph 5 of the previous article also applies, *mutatis mutandis*, to Paragraphs 1 to 4.

Article 4

An international student applying to study at an educational institution in Taiwan in accordance with the provisions of the two previous articles is limited to only applying once. If a student wants to continue studying in Taiwan, their application shall be handled in the same manner as the admission procedures for domestic students.

However, an international student in any of the following circumstances, upon applying to continue studying in Taiwan or reapplying to study in Taiwan, shall not be subject to the limitation set forth in the preceding paragraph:

1. If an international student is applying for admission to a master’s degree or higher level program after completing the course of study at the educational institution to which they originally applied, the university to which the student is now applying shall handle the application in accordance with its regulations;
2. If an international student applied to come to Taiwan to undertake a bachelor's degree or lower level program in Taiwan and after coming to Taiwan stayed for less than one year for some reason then discontinued their studies or forfeited their student status, that student may lodge another application to come to Taiwan to study, but only one such re-application is permitted.
3. If an international student who meets the qualifications specified in Article 2, Paragraph 1, applies for an associate degree or lower-level program.
4. If an international student who meets the qualifications specified in Article 2, Paragraph 1, applies for a bachelor’s degree other than in the department of medicine, dentistry, or Chinese medicine; however, this may be done only once.

If an educational institution in Taiwan where an international student was studying considers that their conduct was unsatisfactory, or academic assessment fails to meet the prescribed requirements, or if the student seriously violated any ordinances or the regulations of the educational institution and the circumstances were serious and as a result, in accordance with the provisions of its regulations governing student awards and penalties had to discontinue their studies or forfeited their status as a

registered student, the student is not permitted to re-apply to study in Taiwan on the basis of the provisions of the preceding two paragraphs.

Guidelines for Refunds to Suspended or Withdrawn Students

September 11, 2013 Passed at the 1st Academic Affairs Meeting academic year 2013

November 8, 2013 Passed at the 3rd Administrative Meeting academic year 2013

November 21, 2013 Announced by KMU Academic Affairs Letter No. 1021103614

- I. These Guidelines have been established to handle matters related to the refund of fees to students who have suspended studies in KMU or withdrawn therefrom.
- II. Students applying for suspension or withdrawal from KMU shall be refunded according to the following ratios:
 - (I) Students who have applied for suspension or withdrawal prior to the start of school (inclusive) shall be exempt from paying any fees; students who have already been charged will receive a full refund.
 - (II) For students who apply for suspension or withdrawal after the start of school but before one-third of the semester has passed, two-thirds of the total tuition and miscellaneous fees shall be refunded to those on a full tuition and miscellaneous fees basis; and two-thirds of the total basic tuition and miscellaneous fees, credit fees, and remaining fees shall be refunded to those on a basic tuition and miscellaneous fees basis.
 - (III) For students requesting suspension or withdrawal after one-third of the semester has passed but not beyond more than two-thirds of the semester, one-third of the total tuition and miscellaneous fees shall be refunded on a full tuition and miscellaneous fees basis; and one-third of the basic tuition and miscellaneous fees, credit fees, and remaining fees shall be refunded to those on a basic tuition and miscellaneous fees basis.
 - (IV) No refund of full tuition and miscellaneous fees, basic tuition and miscellaneous fees, or remaining fees shall be made to students applying for suspension or withdrawal after two-thirds of the semester have passed.
- III. First-year and transfer students subject to the waitlist system who apply for withdrawal prior to the waitlist decision deadline (inclusive) shall receive a full refund; those who apply for suspension and those who apply for suspension or withdrawal after the waitlist decision deadline shall be refunded according to the previous regulations.
- IV. Students who have applied for suspension in the previous semester and continue to apply for suspension in the following semester are exempt from paying any fees.
- V. The base dates for calculating refund are as follows:
 - (I) For those who apply for suspension or withdrawal, the refund shall be calculated based on the date the student (or parent) submits the application for suspension or withdrawal to the Academic Affairs Office and completes the procedures for leaving school.
 - (II) For students who are subject to a suspension or withdrawal order from KMU, the refund shall be calculated based on the date of delivery of the suspension or withdrawal notice; however, if the student continues to attend school due to a suspension or withdrawal appeal process, the actual date of leaving school shall serve as the base date.
- VI. The calculation of the first day of school and semester as stated in these Guidelines shall be based on the official calendar published by KMU.
- VII. Students applying for suspension or withdrawal must prepare the original payment receipt and their account information, and submit them to the Office of Academic Affairs for refund in accordance with Article 2 of these Guidelines.
- VIII. These Guidelines were approved upon a resolution by the Academic Affairs Meeting and the Administrative Meeting, and implemented on the announcement date with the approval of the President. The same shall apply to all subsequent amendments.
